

## User Guide

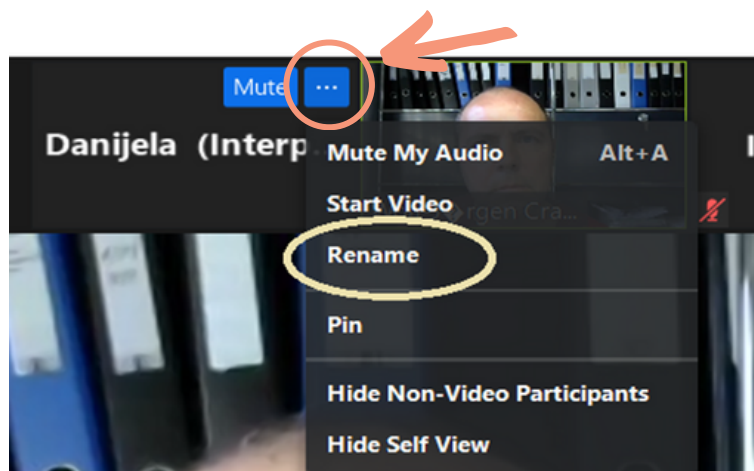

### Zoom Interpretation Module For Interpreters

---

1. As you enter the Zoom meeting, select “Join with Computer Audio”:

2. Upon entering the session, please rename the existing participant name to say “[Language] Interpreter.” For example: German Interpreter. To do so, click on the three dots in the interface. (see below)

## Zoom Interpretation Module For Interpreters

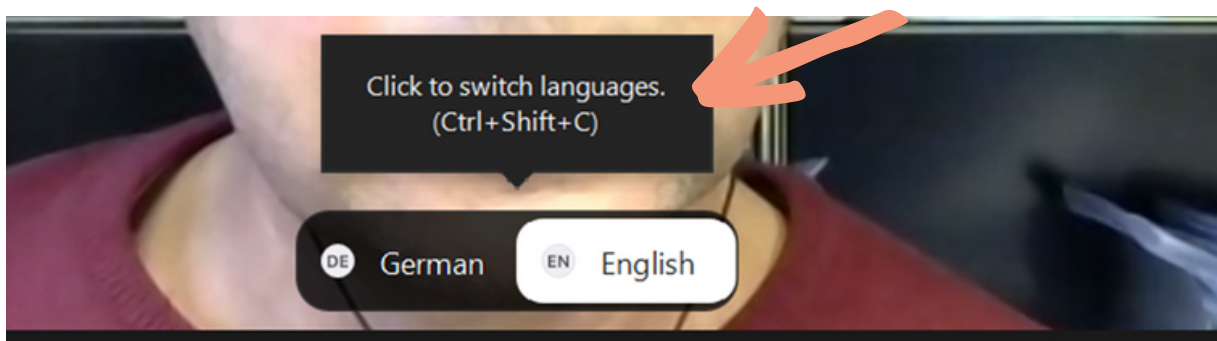

3. The host will assign you as an interpreter. Please select “OK”:

4. Please make sure that your camera is disabled. (see bottom left on Zoom)

5. If you need to switch your outgoing audio, use your mouse or keyboard shortcut:

Please make sure to mute yourself when you are not interpreting.

If you require assistance, contact your technical lead.
