How to use Interprenet Portable Transmitters

- 1.** Power on the transmitter using the power button – first from the left of the buttons along the front side of the transmitter.
- 2.** Plug a microphone headset into the microphone jack at the top edge of the transmitter.
- 3.** Use the up and down arrow buttons (second and fourth from left on the front of the transmitter) to select which channel you would like to interpret on.
- 4.** You may now put your headset on and begin interpreting.

To handover

- 1.** When you are ready to handover to your partner, press the mute button – located at the top edge of the transmitter, between the mic and aux ports.
- 2.** Unplug your headset.
- 3.** Have your partner plug their headset in.
- 4.** Unmute by pressing the mute button once more.
- 5.** Your partner may now begin interpreting.
